

# LIGHT

Good lighting design can make a space,  
but great lighting design can transform it.

## MILKY WAY

For the milky way collection, our research focuses on the balance between poetry and functionality. A dialogue between horizontal and vertical lines, linearity and fluidity.

The Gravity Chandelier by Paul Cocksedge re-imagines the chandeliers of the past. Inspired by changing rigidity to elasticity. The Gravity Chandelier is the definition of a modern chandelier. At first glance, it doesn't reveal its flexibility and cleverness; It takes a second look to unravel its mystery. With its flexible arms, you define the chandelier's diameter and choose where the light travels, but the suspended elements create natural curves shaped by gravity. The Gravity Chandelier comes in two sizes, after the number of arms, Gravity Chandelier 5 and Gravity Chandelier 7.

# LAMP

Luisa is a table lamp for diffused light, a refined and convincing light.

Luisa combines Spanish design with Italian manufacturing experience.

Luisa has a sweet story that won't leave you feeling indifferent. It reveals a subtle yet convincing light. This is a new story about light, made up of interesting chapters that are still being written.

# LUNAR

The Lunar collection is an ode to the retro bazaar light bulb. Like the Aurora series that inspired it, the Lunar series consists of a variety of circular rings of different diameters. The unique design provides excellent practical lighting and is combined with a dimmer to become a mood lamp when needed.
